**Objective:**

I am seeking a position where I can work on improving my skills along with using the skills I have gathered as a software developer. I wish to be challenged intellectually and have the chance for growth.

**Experience:**

**NET ATLANTIC, INC. - Software Developer**

2009 – Current, 10 Federal Street, Suite 26 Salem, MA 01970

Net Atlantic is an E-mail service provider and web hosting company. They offer software as a service using the Lyris ListManager and StrongMail platforms for e-mail marketing and cPanel for web hosting. Working with clients to develop customize solutions and integration along with consultation to assist with reaching our client's goals.

- Developed a mobile website for consumers to access their accounts on the go
- Developed ease of use software to help clients
- Add new features, update, and fix bugs of in-house software
- Working with clients for custom solutions and integrations
- Bring in new technology to help workflow within the development team
  - Replace Subversion with Git
  - Setup Jenkins continuous integration server
  - Setup FishEye and Crucible

**EBSCO PUBLISHING - Data Analyst in Editorial Tech Support**

2000 – 2009, 10 Estes Street Ipswich, MA 01938

EBSCO Publishing provides bibliographic, periodical, and full text into a online research database system. EBSCO Publishing sells subscriptions to the research database and products to various schools, libraries and medical facilities around the world.

- Responsible for quality control for content on the online database
- Develop new applications for in-house processing
- Organizing large data deliveries
- Developed archiving system and maintain archival of data
- Developing queries for relational database systems
- Working with a number of departments on a single project
- Automating out of house processes for faster turn time

**Education:**

**Bachelor of Science - Computer Science with Minor in Mathematics,**
